DETAILED ACTION

1. This office action is in response to Applicant's amendment filed on 11/16/2006.

2. Claims 1-14, 16, 20-27, 29-35, 39-46 and 48 are pending.

Allowable Subject Matter

3. Claims 1-14, 16, 20-27 and 29-35 are allowed over the prior art of record.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 39-46 and 48 are rejected under 35 U.S.C. 101 because it is directed to non-statutory subject matter specifically, as directed to an abstract idea.

Computer program code not claimed as embodied in computer-readable media are descriptive material <u>per se</u> are not statutory because they are neither physical thing nor statutory processes. The claims recite a program code for generating a contract which do not define any structural and functional interrelationships with a general purpose computer for permitting the claimed functions to be realized. In contrast, a statutory claim would define structural and functional interrelationships between data structures or functional parts and a computer readable medium which permit the data functions to be realized. Thus, the claim is rejected as being non-statutory as described above.

Applicant is advised to add a computer readable medium into the preamble of claim 39.
